

## Personal Prospectus

In my future, I plan on obtaining a music education major and fulfilling my dream of helping others accomplish their musical dreams like I have my own. I have applied to attend the University of Nevada, Reno in the Fall of 2019 and have been accepted. Additionally, with all my hard work in the Jump Start program here at Carson High School, I will obtain an Associates of Arts degree with my high school diploma. This will put me ahead in my education, and ahead in life, so I may accomplish more music related classes for my music education major. Even now, I have learned to play piano for my senior project to help me accel in taking both the piano and music theory proficiency placement tests. In the next four years of my future, I will continually earn a Bachelor's degree in music education so I will later retain a job as a music director. I do not have a preference to which grade I teach; all I know is that I want to help students learn to love music and celebrate their accomplishments just as my teachers had for me.
